

DSA – INTERVIEW FOCUSED

MODULE 1 – Complexity & Problem Solving

- Time & Space Complexity
- Big-O
- Interview thinking pattern

MODULE 2 – Arrays + Searching - Important

- Sliding Window
- Two Pointer
- Prefix Sum
- Kadane
- Binary Search

MODULE 3 – Strings + Hashing

- Palindrome
- Anagram
- Frequency Map
- Subarray sum
- Longest consecutive sequence

MODULE 4 – Recursion

- Basic recursion
- Subsets (only concept)

MODULE 5 – Sorting Concepts - (Conceptual focus, not implementation heavy)

- Bubble
- Insertion
- Merge

- Quick
- Complexity comparison

MODULE 6 – Linked List

- Reverse
- Cycle detection
- Remove Nth node

MODULE 7 – Stack & Queue

- Valid Parentheses
- Next Greater
- Sliding Window Max
- Priority Queue basic

MODULE 8 – Trees - Important

- Traversals
- BST
- Height
- LCA
- Validate BST
